GENUINE

Sana Safinaz is delighted to present Volume II of their exceedingly popular Muzlin collection. After the resounding response to Volume I at the beginning of the season we present a follow-up collection that stays true to the philosophy of “fashion-forward, affordable luxury”.

A Summer wardrobe staple in the lightest, softest spun lawn it is comfortably wearable and extremely weather-friendly all the while emanating a very current and trendy essence.

The focus once again is on a relaxed yet celebratory summer aesthetic with a color palette ranging from pretty, feminine pastels to bright and playful hues. Prints and motifs of floral and geometric patterns are complemented with a subtle hint of delicate embroidery on all the designs.

Simplicity takes on a whole new meaning this Summer and translates to an effortless style with maximum impact!
